

# Create A Database In Cloudbant DB

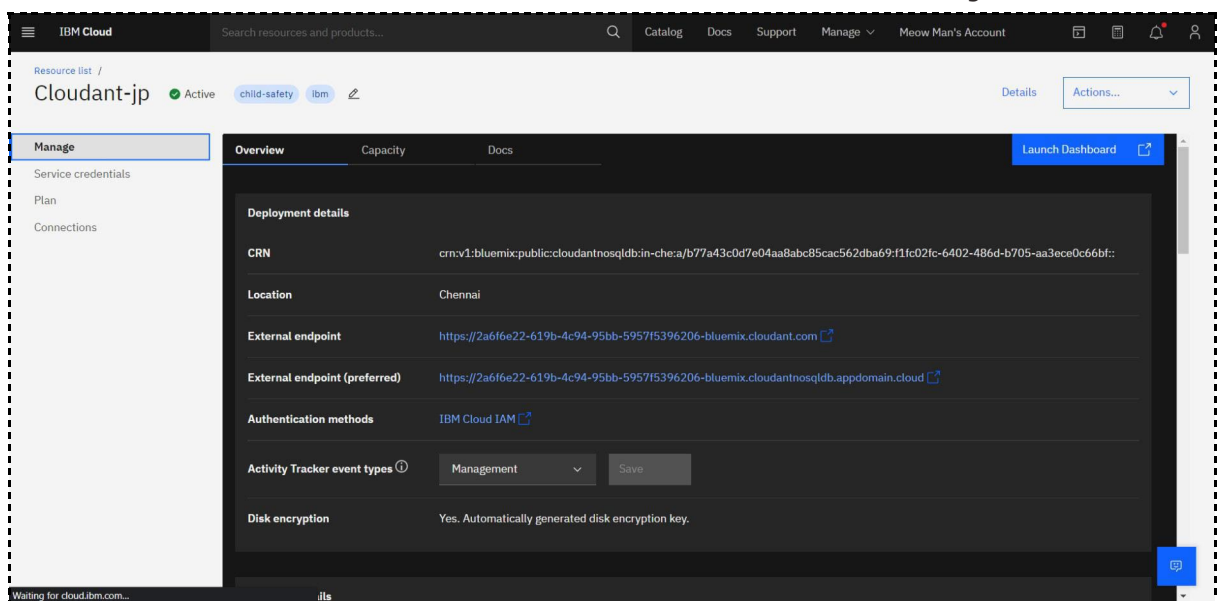

**Aim: To create a database in Cloudbant DB to store location data.**

**Steps followed:**

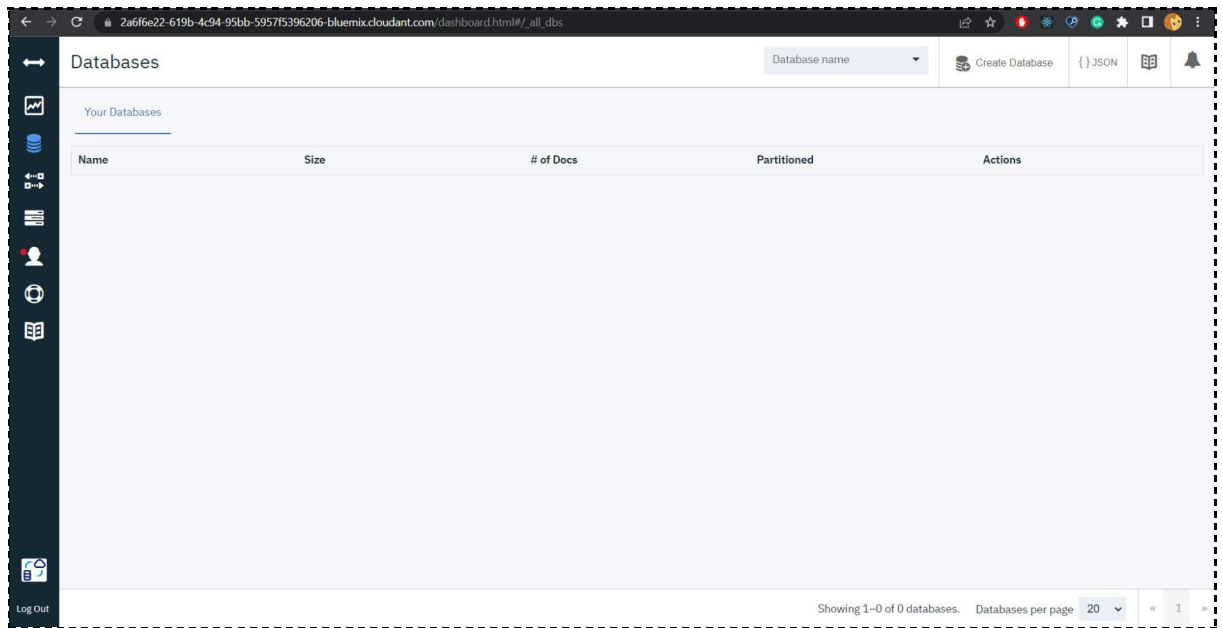

- **Logged in to IBM Cloudaccount**
- **Navigated to `./resources`**
- **Clicked on the “Create Resource +” button**
- **Searched for “Cloudbant”**
- **Chose the “Lite Version” and clicked on “Create”**

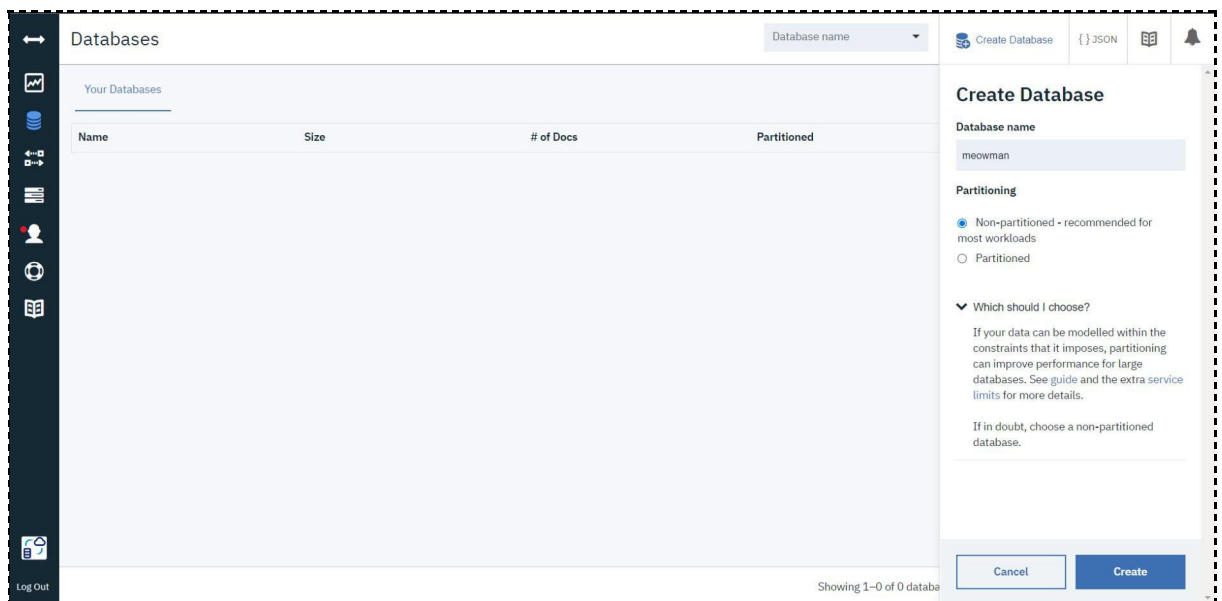

- **The Cloudbant database resource was created successfully**

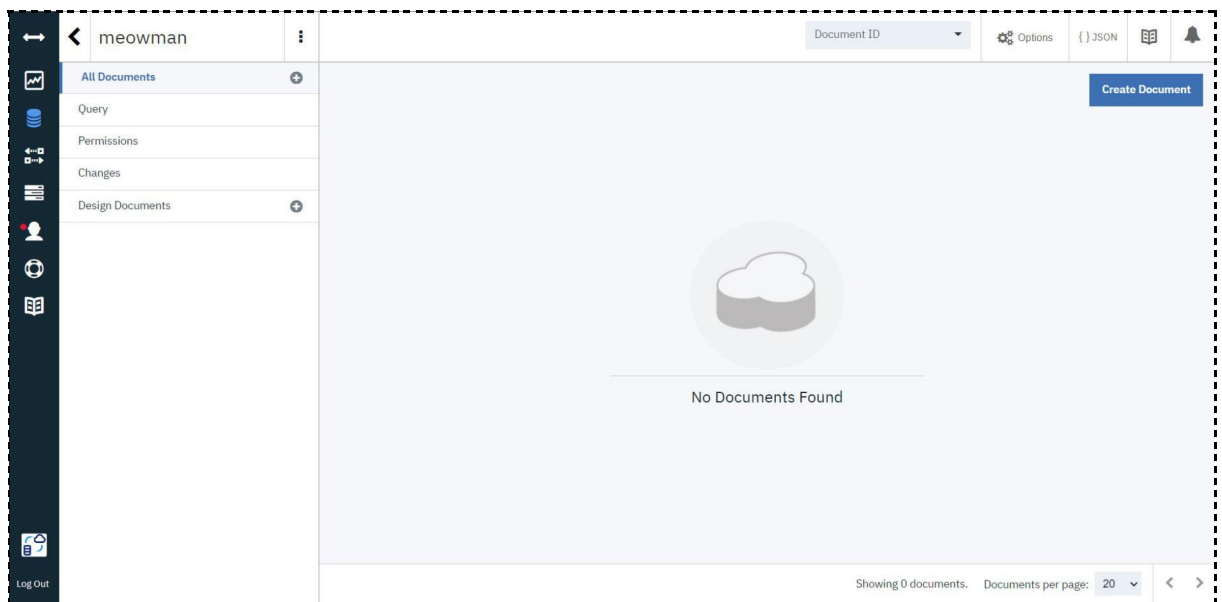

- **Clicked on Launch Dashboard**

- **Clicked on “Create Database”. Entered “meowman” as the database name and the “Non-partitioned” option**

- The database “meowman” was created successfully

## Result:

**A database to store the location data was created successfully on Cloudant DB**
